Jan. 2002: organising an exhibition about campus at the University of Canterbury

Language skills:

English and German	fluent
Spanish	spoken
French	basic knowledge

Personal Interests:

- One of my most important interests is travelling. After finishing school I took 6 month off to explore South America, to experience different cultures, to challenge myself and not least to learn Spanish. Since then I have undertaken several longer trips during my holidays, mainly within the Americas.
- Another hobby is sports; in my youth I was a very successful handball player, which I had to give up due to an injury. This year I joint the badminton team at University, where I now play in the University team.
- An interest, which became closely connected to my studies, is art; I enjoy very much to engage in contemporary art in various forms as well as creating and crafting myself.
